ASQ
Information for
Penticton Area
Parents

What is ASQ?

ASQ (Ages and Stages Questionnaire) provides a quick check of your child's development. And it's an opportunity to learn about developmental milestones and fun learning activities.

As a parent you are the best source of information about your child. That's why the simple questionnaires are designed to be filled out by you.

Why Check Early, Check Often?

Because a child's first 6 years are critical to a healthy mind and body for life.

Checking on your young child's development helps to:

- make sure she is growing and learning well
- identify strengths as well as areas that he may need to practice
- prepare her to be ready to learn in kindergarten
- make sure he is off to the best possible start
